Israa and Al Miraj

Al Israa and Al Miraj is a special night in Islam. On this night, Allah took Prophet Muhammad (peace be upon him) on a wonderful journey from Masjid Al Haram to Masjid Al Aqsa, and then up to the heavens. This night teaches us the importance of prayer and believing in Allah. It reminds us to be thankful and follow the teachings of our Prophet.

How To Save environment?

Saving the environment is very important for our future. We should keep our surroundings clean by not throwing litter and by recycling waste. Saving water and electricity helps protect natural resources. When we take care of the environment, we help keep the Earth healthy for people, animals, and plants.

Kindness Around The World

We can spread kindness around the world by being kind every day at school and at home. We can smile, share our things, help our friends, and use kind words. Respecting others and including everyone makes people feel happy and safe. When we are kind, we make our school and the world a better place for everyone.
