- **Attendance / Absence and Tardiness:**

A successful school experience is the responsibility of the children, the parent and the school. Your child's progress, both academically and socially is influenced to a great extent by daily participation.

Now it is the time to establish good attendance habits. Help your child realize that school is an important part of his/her life and that you expect him/her to go to school every day and to be on time to class. Attendance is an important part of the school curriculum.

Regular attendance without tardiness is a key.

1- If a child arrives late, parents/guardian will report to the elementary administration. The secretary will register lateness and escort the child to class.

If no written note or phone call is received before 2:00 pm, your child will be sent home by his/ her usual method of transportation.

- **Promoting Positive Behavior:**

Everyone has the right to always feel safe. Behavior improves when handled in a positive way. Behavior management is very important in school as it is at home. School and parents need to share responsibility, always being consistent, creating a positive safe and secure environment for children. To maintain an environment conducive to learning we expect the children to follow the basic rules:

- 1- I sit and work quietly.
- 2- I raise my hand to speak

- 3- I wait for my turn.

Student's well-being and Social emotional learning

Dear Parents,

At Dubai International Private School, we are dedicated to supporting the holistic development of every student, focusing on both well-being and social-emotional learning (SEL). We believe that these elements are crucial for helping children thrive academically, socially, and emotionally.

Well-being is at the heart of our educational approach. We strive to create a safe, inclusive, and positive environment where each child feels valued and supported. Our goal is to promote mental and physical health, encourage healthy lifestyle choices, and ensure that every student feels secure and happy in their school community. We understand that well-being encompasses various aspects of a child's life, including their emotional state, physical health, and overall happiness.

Social-Emotional Learning (SEL) is another cornerstone of our curriculum. SEL helps students develop essential skills such as emotional regulation, empathy, and effective communication. Through SEL, we teach students how to understand and manage their emotions, set and achieve goals, show empathy towards others, and build strong, respectful relationships. These skills are vital for their success both in school and beyond, as they foster resilience, confidence, and a positive self-image.

We encourage you to support these initiatives at home by engaging in activities that promote well-being and SEL. Simple practices like open conversations about feelings, encouraging healthy habits, and modeling empathy and problem-solving can significantly impact your child's development. By working together, we can create a consistent and supportive environment that reinforces these important lessons.

Thank you for your ongoing partnership in helping our students become well-rounded, confident, and compassionate individuals.
